NETWORKED URBANISM: CONNECTIONS + COMMUNICATION ACROSS SPACE + TIME

DECEMBER 8, 6:30 PM, KANE 120

TAD HIRSCH
People and Practices Research Group, Intel

TODD PRESNER
Germanic Languages, UCLA

DAVID STARK
Sociology, Columbia University

Remarks by
HANSON HOSEIN
GINA NEFF
University of Washington

How are new digital media changing how we build and maintain the social connections that make urban environments vibrant? This panel brings together experts from humanities, social science, and technology to focus on questions of how computer networks and social networks are reshaping, remapping, and remaking cities. Technology and infrastructure have always helped to define urban environments and rapidly changing information and communication technologies are no exception. From digital maps to online social networks, new technologies are changing what we know about the cities we are in, how we use them, and how we connect to one another.

Now Urbanism, a 2010-2011 Sawyer Seminar generously funded by the Andrew W. Mellon Foundation and hosted by the Simpson Center for the Humanities, is a collaboration of the College of Built Environments and the College of Arts & Sciences, University of Washington, with support from the UW Alumni Foundation and the Graduate School. Now Urbanism is a central component of NEXT CITY, a two-year special initiative of the UW Office of the Provost that is focused on the challenges and opportunities of urbanization in the twenty-first century.
